

HCCF'S STUDENT PROFILES ARE DESIGNED TO KEEP YOU INFORMED AND CONNECTED

MEET HCC STUDENT ANDROS RAHAMAN JIMOH

GOD HAS ALWAYS RESCUED ME

IN HIS WORDS-ANDROS RAHAMAN JIMOH

"I have known and lived with endless difficulties. I was born with eye defects which have affected my vision, as I have a twisted cornea. I was born to a Muslim father from Nigeria in bizarre circumstances. My mother was sexually abused, leading to my conception. My father passed away when I was in basic school. **The dire conditions I experienced living with my mother made me contemplate suicide on many occasions, but God has always rescued me.**

The psychological torture my mother has gone through in her life has driven her to become mentally ill and this has affected my education. Her relatives who could come to my aid have all deserted us because of the stigma associated with mental illness and other circumstances surrounding my story.

I do menial jobs to support myself, but this cannot cater for my tuition and upkeep to complete my university education. Despite all my difficulties, I am determined to be a Network Engineer and an entrepreneur in the future, but the future looks bleak without any financial support to complete my education and change my life story.

Heritage Christian College has provided me the environment to build my faith in God and renew my hope in him. It is because of this hope that I continue to pursue my education and trust that God will provide a way for me to finish."

By joining our Genesis Community of monthly donors, you can support students like Andros Rahaman Jimoh by making a monthly commitment towards 'scholarships'.
