

Heritage Christian College

Core Values

Core Values

HCC will strive to prepare students to embrace three core values which are integrally woven into the curriculum of each degree.

They are:

1. **Entrepreneurship** – the knowledge, skills, demeanor and interest in creating businesses, organizations for community development and churches to nurture in Ghana and West Africa that offer good jobs to growing numbers of employees, rewards the entrepreneur and which lead to the fulfillment of the other two core values.
2. **Philanthropy** – the ability to “give back” to society and the Kingdom of God. Students will be encouraged to learn that all blessings come from God and are God’s. We are to be custodians of the gifts and use them to His purposes. As such, we expect all HCU graduates to contribute back to HCU, their churches and to the needs of society in a responsible way.
3. **Ethics** – all of the above mentioned values should be expressed within a Christian Worldview and as such a Christian Ethic. We were created by God to be reflections of His glory. As redeemed disciples, we will do all things: business, personal, and kingdom purposes with a clear understanding and appreciation for the desire of God for all of us to be holistically coherent in all we do; to live as he would expect us to live and behave.
